

Toulouse scenery 2020
For Xplane v11.30 and more...

Licence

This scenery is a freeware; it is entirely free of charge and may not be used for commercial purpose. You must redistribute the scenery with all its files.

You load this scenery at your own risk, without any warranty, the authors cannot be considered responsible for any troubles or damages resulting from its use.

Scenery components

Toulouse's scenery contains is composed of two files with two subdirectories in each of them :

- **Aerodrome LFBO-LFCL-LFBF Toulouse_Global XPFR.zip** : Objectcs definition of the scenery
- **[Tile: +43+001 Toulouse](#)**: Photo tile and « Global map » to download from [Zonephoto](#)

The "Tile" part of the scenery is not mandatory for the operation of the scenery but it is strongly recommended to homogenize the whole as well as greatly improve its appearance.

Install and update

For an update, we recommend you to delete any previous directory of Toulouse.

To work correctly, the scenery needs the following libraries installed in x-plane:

- [3D people library v3.9](#)
- [OpenSceneryX v4.4.0](#)
- [R2 Library](#)

Simply unzip and move the two directories « Aerodrome LFBO-LFCL-LFBF Toulouse_Global XPFR » and « City Toulouse_OSM XPFR » in the "Custom Scenery" of X-plane.

For the Toulouse Tile "+ 43 + 001 Toulouse Tile", unzip and place the subdirectories "overlay" and "terrain" in "Custom Scenery".

If you use the "Photo Tile" as a complement, make sure that the directory is placed behind the two directories of the Toulouse scenery in the file "scenery_packs.ini" as follow:

```
1 I
2 1000 Version
3 SCENERY
4
5 [...]
6 SCENERY_PACK Custom Scenery/Aerodrome LFBO-LFCL-LFBF Toulouse_Global XPFR/
7 [...]
8 SCENERY_PACK Custom Scenery/City Toulouse_OSM XPFR/
9 [...]
10 SCENERY_PACK Custom Scenery/Global Airports/
11 [...]
12 Overlay sceneries
13 [...]
14 SCENERY_PACK Custom Scenery/zPhotoXP_+43+001_17_Toulouse_XP10-XP12_2020-12-terrain/
15 [...]
16
```

Then, you can launch X-plane, place your aircraft on one of the airport of the Scenery and enjoy it....

How to use Marginal's Autogates

Toulouse-Blagnac's gates (LFBO) are animated by Marginal's Autogate plugin which you can download at <https://marginal.org.uk/x-planescenery/plugins.html>.

Read the "ReadMe.txt" in the package to know how to install it.

Here is the list of gates which are using Marginal's Autogate plugin at LFBO airport: E10, E21, E30, E41, E42, E50, E62, U12, U21, U22, U30, U40 and U42

Airport deseigned in the scenery:

- **LFBO - Toulouse Blagnac**

French airport located in Blagnac, North-West from Toulouse. It is the 4th ranking airport outside Paris (after Nice, Lyon and Marseille), Toulouse-Blagnac also maintains its position as the no. 1 freight airport outside Paris.

A gateway to the world, it aims to become the airport of southwest France, connecting the world's major financial centres.

- **LFBF - Toulouse Franczal**

French military airbase convert to civilian airport located near Cugnaux and Portet-sur-Garonne, in the South-West from Toulouse.

- **LFCL - Lasbordes**

French airfield located in Balma , 4 km East from Toulouse. You can find it easily with the Ariane 5 rocket at the "Cité de l'Espace".

- **LFBR - Muret L'Herm**

French airfield located in L'Herm, 5 km in the South-West from Muret.

- **LFIT - Bourg St-Bernard**

Airport for light and sportive activities, only used for soaring.

Helipad deseigned in the scenery:

- **HPTP - CHU Toulouse Purpan**

Heliport of the TOULOUSE Purpan University Hospital.

Purpan Hospital is a public health establishment located in Toulouse Haute-Garonne, Purpan district, in France. It is part of the Toulouse University Hospital Center.

- **HTRP - CHU Toulouse Rangueil Pech David**

Heliport of the CHU of TOULOUSE Rangueil.

Rangueil Hospital is a public health establishment located in Toulouse Haute-Garonne district of Rangueil sur le Pech-David in France. It is part of the Toulouse University Hospital Center.

- **LFBR - SAG Toulouse Franczal - Gendarmerie**

Heliport of the SAG of Toulouse Franczal.
